Message from the Chairman

Following the success of the 18th Emirates Critical Care Conference (ECCC) 2022, it was an honor and a privilege to have organized the “**19th Emirates Critical Care Conference (ECCC)**”, which was held **12 – 14 May 2023**. We were fortunate to have an outstanding group of high-profile speakers and world leading scientists and clinicians from across the globe who covered a wide range of exciting topics within the field of critical care and all related fields; attracting a great turnout of delegates who greatly benefited from the latest research and up-to-date information discussed at the conference.

The 19th ECCC also included various informative learning platforms, panel discussions, refresher courses/workshops and provided an educational program that allowed professionals from academia and the industry to be updated with the latest research and rapid developments occurring in the field to improve the standards of patient care in the UAE.

This event has provided an exceptional opportunity for attendees to share and acquire knowledge on a wide spectrum of topics in addition to an opportunity to meet and rub shoulders with the experts and innovative educators in the field.

We would like to express our sincere appreciation to all participants, sponsors, exhibitors, supporting organizations, partner societies, media partners and committee members who made this conference a success.

We hope to see you all again next year in 2024!

Assoc. Prof. Dr. Hussain Al Rahma

Chairperson of the Conference (ECCC-Dubai)
President International Pan-Arab Critical Care Medicine Society (IPACCMS)

Abu Dhabi hall covered 5 sessions which comprised of 23 lectures.

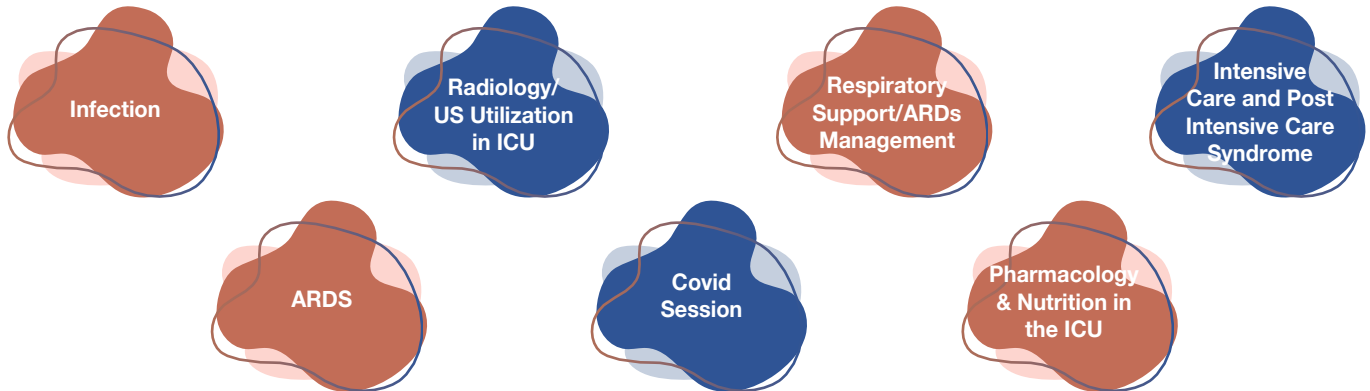

Abu Dhabi hall covered the following session topics;

Sharjah Hall – Track 3

Sharjah Hall covered 7 sessions and 50 lectures.

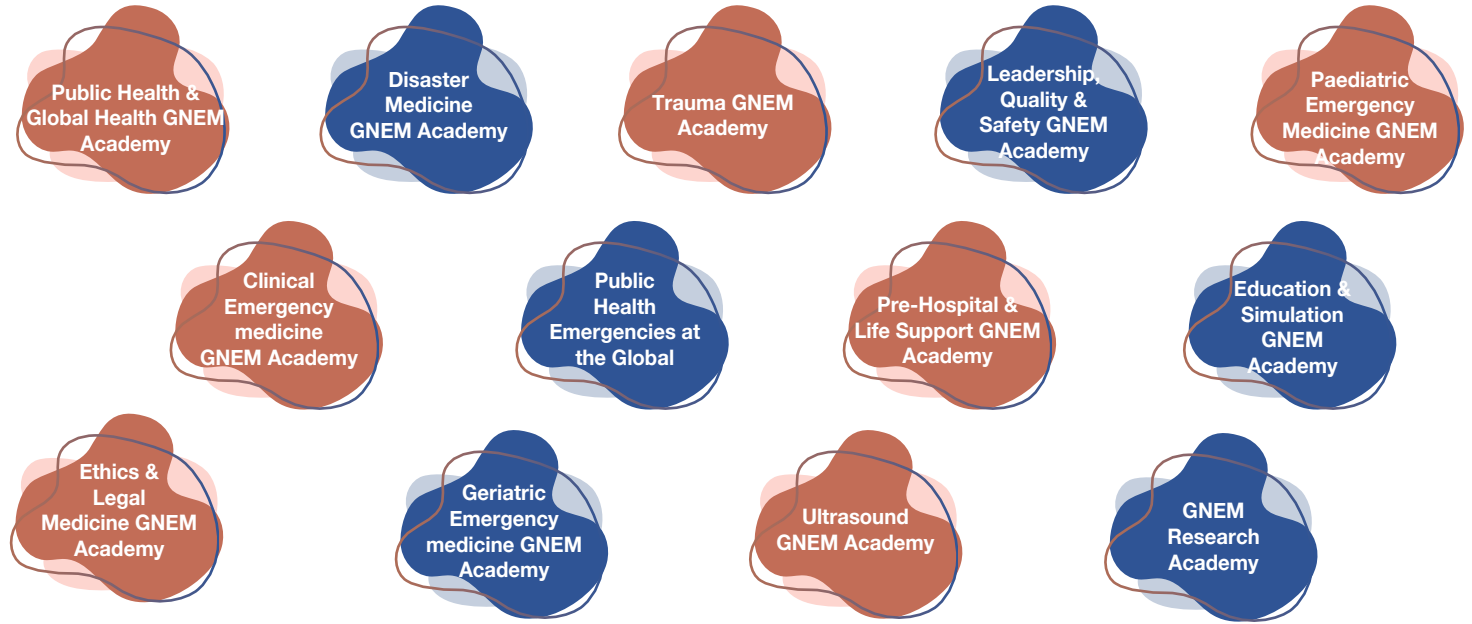

The Topics covered in Sharjah Hall were;

Fujairah Hall – Track 4 (GNEM)

The 5th Global network of Emergency Medicine (GNEM) was held covering 3 full day tracks including round table discussion sessions and learning sessions lead by the renowned speakers. The track covered 15 sessions in all covering 54 lectures.

The following session topics were covered;

Ajman Hall – Track 5 (Nursing)

In collaboration with 'World Federation of critical Care Nurses' (WFCCN), 'Nursing track' was arranged that covered 8 sessions containing 46 lectures over the course of the 3 day program.

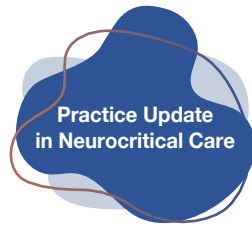

Through the joint venture of organizing this track and in light of its grand success, ECCC has signed a 5-year collaboration contract with the World Federation of Critical Care Nurses (WFCCN) insuring future support and collaboration between the two entities.

Al Barsha Hall – Track 6 (NCS Track)

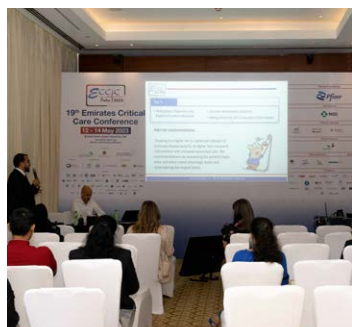

The 4th Regional Neurocritical Care Meeting in the Middle East/Africa in partnership with the Neurocritical Care Society (NCS) was held covering a one-day Neurocritical Care Society Track on Day 2 of the conference. The NCC Meeting of the MENA conducted and covered the following:

The NCS track covered 4 sessions and 16 lecture topics on Day 2

Ras Al Khaimah Hall – NCS Nursing Track

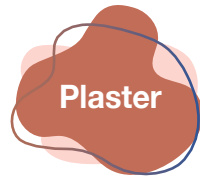

The NCS Nursing track on Day 3 covered 2 Sessions & 10 lecture topics

Workshops

Umm Al Quwain – GNEM – Minor Trauma, Quality & Safety Workshops (Al Noor I)

The conference organized The 5th Global Network on Emergency Medicine (GNEM) – Minor Trauma Workshops on Day 1: The workshop emphasized to learn the relevant immobilization techniques of the upper & lower limbs:

The workshop also highlighted how to manage sutures of wound injuries in the ED.

DEIRA HALL – ECMO Workshop

A 2 day workshop, made the participants:

- Understand the basic principles of ECMO
- Identify the components of the ECMO circuit
- Describe basic and advanced physiology of VV and VA ECMO
- Recognize major indications and contraindications of VV and VA ECMO
- Identify common problems and major complications of ECMO
- Differentiate the interaction ECMO has on various patient organ systems

Al Barsha Hall – Brain Death Determination Workshop

The NCS also conducted the Brain Death Determination Workshop on Day 3 to educate health care providers to improve practices surrounding the declaration of Brain Death:

- The history and process of declaring death by neurological criteria
- Conduct a full BD exam including apnea test and ordering the right ancillary tests
- Avoid pitfalls and complete a declaration in special situations (posterior fossa injuries, ECMO etc)
- To deliver the news to the families
- Understand the aftermath (how the transplant coordinators approach the families)

Jumeriah Hall – Managerial Workshop

Under the title of “Leadership as Coach” discussed the managerial aspect of healthcare instructed by Dr. Medhat Sweillam and Mr. Sherif Sweillam

Hatta – Industry Workshops

Industry workshops were conducted over 2 days in a dedicated hall showcasing the most up to date technology and technique in the industry aimed at developing healthcare.

Ras Al Khaimah Hall – Ultrasound Course

The course covered the following learning objectives on Day 2 of the Conference:

- Learn the basic physics and concepts of Ultrasound
- Understand ultrasound instrumentation, Knobology
- Demonstrate the role of ECHO in the Critical Care setting
- Learn Transthoracic echo views
- Topics covered: Physics of ultrasound and Knobology, Basic TTE views, LV and RV function, valvular dysfunction, Cardiac Tamponade, Pulmonary embolism & diastolic dysfunction

Ras Al Khaimah Hall – ECHO Course

The course covered the following learning objectives on Day 2 of the Conference:

- Learn the basic physics and concepts of Ultrasound
- Understand ultrasound instrumentation, Knobology
- Demonstrate the role of ECHO in the Critical Care setting
- Learn Transthoracic echo views
- Topics covered: Physics of ultrasound and Knobology, Basic TTE views, LV and RV function, valvular dysfunction, Cardiac Tamponade, Pulmonary embolism & diastolic dysfunction

Al Barsha Hall – ENLS Course

ENLS Full Day Course on Day 1 covered 16 Lectures in 5 sessions

The Emergency Neurological Life Support (ENLS) course is designed to help healthcare professionals improve patient care and outcomes during the critical first hours of a patient's neurological emergency. ENLS demonstrates a collaborative, multi-disciplinary approach and provides a consistent set of protocols, practical checklists, decision points, and suggested communication to use during patient management.

Al Barsha Hall – ENLS Course

Umm Al Quwain – GNEM – The International Quality & Safety in Emergency Medicine Course (Al Noor I)

The conference organized The International Quality & Safety in Emergency Medicine Course on Day 2:

- The goals of this One-Day course are:
- To understand the concept of culture of quality and safety
- To understand teamwork and leadership
- To understand appropriate tools for continuous quality and safety improvement
- To understand patient safety experience
- To understand education approaches
- To understand how to conduct research in quality and safety
- To understand how to build and implement a quality and safety programme for a change in your department

Emirates Hall - Industry Symposium Hall

Industry symposia were conducted over the 3 day program in a dedicated hall focusing on the role of the industry in developing ground breaking technology and technique aimed at improving patient care, as per the MECOMED guidelines.

In their continued support of ECCC, The **Dubai's Department of Economy and Tourism (DTCM)** offered **50 tickets** for each the **Museum of the Future** as well as **La Perle** for the conference's international and regional faculty on the first day of the conference (12-May 2023).

La Perle is the region's first permanent show, located in the heart of **Dubai**. The show features a breathtaking fusion of immersive artistic performances, imagery and technology brought to life by awe-inspiring stunts and special effects.

The **Museum of the Future** is one of **Dubai's** most iconic sites.

In a building cited as being an architectural and engineering marvel, the museum prides itself in being a gateway to a future world, crafted by visionary designers, artists and filmmakers –providing an experience that combines elements of exhibition, immersive theatre and themed attraction.

Cruise Dinner

On the second day (13-May 2023), the conference organized a **Cruise Dinner** for the faculty members that took them on a voyage around the bay and through **Dubai**. Offering them an unmissable sightseeing opportunity from the boat paired with international cuisine.
